Pustkophar

Pustkophar was organized in the beginning of April 2019. Through this program students shared their books with their juniors. Inculcating the values of empathy and sharing and the happiness of giving is shared among the young learners. The students who could not buy the books, received the books and reduced their financial burden. Donar feels proud for using their books in a fruitful manner. This year, 400 books were donated by 80 students. Some students who read reference books and story books also donated the books to the library.
