

A report on partnership with Government school.

A project named “partnership with Government school” has been started by KVS RO Agra region under the able guidance of our principal B. Gayathri, in which our school KV AFS Chandinagar is sharing its resources with the students of primary school Chamrawal No. 2, thus letting them feel equal at the same platform. A total number of about 25 to 30 students visit KV AFS Chandinagar, every quarter with their escort teachers.

The typical areas of resource sharing are - Library, Science lab, e-classrooms, computer lab, resource room, sports, music, art & craft etc.

Our able teachers are willingly extending their best support through class room teaching. Visiting Govt. school students read and enjoy lot of story books, children are also introduced with the basics of computers – like paint brush options etc. They also get an opportunity to participate in the morning assembly and present their items thus boosting their confidence.

So, this partnership really helps student to experience our school’s scholastic as well as non-scholastic activities, thereby boosting their knowledge and confidence.
